Dear Harold,

I hope you and Bill are doing well. As Orioles' fans, you must be enjoying the season finish. I've been pulling for Birds too, although my favorite team is the St. Louis Cardinals (my father is originally from Missouri.)

As you may have heard, my lawsuits have been tied up with the usual delays. All of this time spent in court has made me (and Kern) think more in terms of a political instead of legal solution to obtaining FSCA related documents. That's why Kern

and I are forming an organization called A.C.C.E.S.S. to push ~~more~~ for a bill to release the FSCA files.

ACCOSS stands for Association of Concerned Citizens for Ending Government Secrecy. Our initial mailing should come with Paul Hoch's newsletter, which should arrive soon.

I'm writing to personally ask you to join ACCOSS. As our mailing says, ~~we~~ ACCOSS will take no position on the question of conspiracy or of the adequacy of the various investigation options. We simply seek the fullest possible disclosure of information on the assassinations of JFT and MCK. We already have a Congressman interested in sponsoring the bill we need, but we still must have a decent sized group to have some credibility on the Hill. Kevin and I would be greatly appreciative of your support.
